

Free Safety Workshops offered by Montana State Fund

June 3- 24

[Click Here to Register](#)

There is no substitute for workplace safety. Since unsafe behavior contributes to 90% of all injuries, it's essential that every business makes an investment in workplace safety. Let Montana State Fund's safety team help you make this investment by attending our next round of free safety workshops *Safe and Sound Business Practices*.

What we will cover.

Safety is Good Business: Most companies have a well thought out business plan, but do they have an established safety program? This session will help employers understand why integrating a quality safety program into a business model can save money and improve employee morale.

The Buzz about Electrical Safety: Electricity is an essential part of every day life, but are most people aware of some of the hidden dangers related to it? This interactive session will give every participant the facts they need to avoid a home or business from going up in flames.

All trainings take place from 8:30 a.m. – noon. Supervisors, business owners, managers, safety committee members and workers' compensation personnel are encouraged to attend.
